Notes:

1. Refer to current International Building Code for definitions and Use and Occupancy Classification.
2. A "building" means a structure consisting of a foundation, walls, all floors and roof, with or without other parts. A basement is not to be counted as a story for the purpose of counting stories of a building for height regulations. (See Sec. 502.1 for definition of Basement.)
3. See IBC Section 1004, Table 1004.1.2 for occupant loads.
